

Education

Degree/Course	Institute/Board	CGPA/%	Year
B.Tech. (Electrical and Electronics)	Visvesvaraya National Institute of Technology, Nagpur, Maharashtra	6.62 (current)	2027
Class XII (CBSE)	Central Academy School, Bhilwara, Rajasthan	82%	2022
Class X (CBSE)	Central Academy School, Bhilwara, Rajasthan	91.6%	2020

Projects

HireTrack AI- Intelligent Job Application Management Platform

[GitHub]

- Structured a **cloud-native** recruitment backend with **18 RESTful API endpoints** using **FastAPI** and **SQLAlchemy ORM** across 5 normalized **MySQL** tables, integrating **AWS S3** with boto3 presigned URLs and PyMuPDF for resume ingestion — achieving **sub-28ms response time** and **100% parse success** across 60+ PDFs.
- Powered AI-driven candidate screening by integrating **Google Gemini API** with iterative **prompt engineering** across **25 parameters**, achieving **85% match accuracy**; resolved **rate-limit failures** under concurrent load via **retry logic with exponential backoff**, ensuring **fault-tolerant** pipeline execution.
- Fortified API security with **JWT authentication**, **bcrypt** hashing, and Pydantic validation; ensured reliability via **24 automated Pytest cases** and containerized with **Docker Compose** for one-command deployment.

Smart Expense Tracker- Personal Finance Platform

[GitHub]

- Engineered **15+ RESTful API endpoints** using **FastAPI** and **SQLAlchemy ORM** across 3 normalized **MySQL** tables with **query optimization**, securing **multi-tenant** data via **JWT authentication**, **bcrypt** hashing, and query-level isolation — achieving **sub-13ms response time** across 500+ requests.
- Boosted AI-powered expense categorization from **77.9% to 97.9%** by integrating **Google Gemini API** with a **150+ keyword fallback system** via iterative **prompt engineering**, validated across **18 expense categories** on 100 real-world transactions.
- Diagnosed and resolved **connection pool exhaustion** under **Locust** load testing by reconfiguring **SQLAlchemy** pooling parameters, sustaining **400+ concurrent users** at **54 RPS** with **0% failure rate**; containerized with **Docker Compose** for one-command deployment.

Skills

Programming Languages:	Python, Java, SQL
Backend Development:	FastAPI, REST APIs, SQLAlchemy ORM, Pydantic, JWT Authentication, bcrypt
Cloud Platforms:	AWS S3, Docker, Docker Compose
Database Systems:	MySQL, Schema Design
GenAI & AI-Powered Tools:	Google Gemini API, Prompt Engineering
Testing & Troubleshooting:	Pytest, Postman, Locust, Debugging & Troubleshooting Complex Systems
CS Fundamentals:	Object-Oriented Design Principles, Data Structures & Algorithms
Version Control Systems:	Git, GitHub
Frontend Basics:	HTML, CSS

Achievements & Certifications

- Generative AI in Software Development** — *Amazon* 2025
- Google Data Analytics Specialization** — *Google, Coursera* 2025
- Programming in Python | Version Control | HTML and CSS in Depth** — *Meta, Coursera* 2025

Positions of Responsibility

Technical Secretary, Electrical & Electronics Department, VNIT

2024–25

- Identified gaps in department digital outreach and took **end-to-end ownership** of technical event execution and website development, driving measurable improvement in department visibility and student engagement.

Event Representative, Junior Scientist, VNIT

October 2024

- Diagnosed and resolved real-time logistical bottlenecks across a **two-tier coordination framework** of **10+ coordinators** and **100+ students**, ensuring **zero-disruption delivery** of a large-scale science event.

Class Sports Representative, Electrical & Electronics Department, VNIT

2023–24

- Designed a structured coordination pipeline across **17 CSRs** to proactively identify and resolve scheduling conflicts, enabling **conflict-free execution** of **15+ sports events** with **200+ participants**.

Extra Co-Curricular

- Competed in **Smart India Hackathon 2025** as part of 6-member team Exegesis, proposing an AI-driven crowd-sourced ocean hazard monitoring system using NLP for disaster management under the INCOIS problem statement.
- Competitive Programming:** Solved **200+ problems** across LeetCode and GeeksforGeeks covering data structures, algorithms, and problem-solving; actively participated in LeetCode Weekly and Biweekly Contests.

- **Inter-NIT Sports Meet – Lawn Tennis (Women’s):** Secured **Silver Medal**, competing against teams from **15+ National Institutes of Technology** across India.
